# Before the course

- My career goal was to get an idea of finance
- and its importance in any industry
  - This is because I want to explore courses to
  - find what it is that really fascinates me.

This idea came from multiple ideas and going through multiple career analysis. I was interested in entrepreneurship but investment banking at the same time

# Career choice now

- Since attending the programme, I have a clear idea of finance and its important in the industry.
- However it may not be something I want to be in the industry in.
- This is because we learnt multiple different basics of financing, collaborated on excel and were introduced to multiple key events in the financial industry.

# Highlights

- My highlights from the industry visits and guest speaker was the talk from Chuck Garcia
- He taught me the importance of adaptability, customer-centricity, and continuous innovation in the evolving financial landscape.

# Career skills workshops

In the career skills workshops I learnt:

- Importance of analytical thinking
- Effective communication
- Staying abreast of financial regulations and market trends

I gained practical insights into financial modeling, risk management, and the ethical considerations crucial to maintaining integrity in finance

# Immerse 5Cs
